

COMPANY PROFILE

ABOUT US

Ontrack Welding & NDE Solutions was established in 2012 as a result of a demand for Non-Destructive Testing services predominantly in the Rail, Petrochemical, Marine, Mining, Paper and Pulp, Energy & Sugar industries.

Ontrack Welding & NDE Solutions is a BBBEE Level 1 contributor with all shareholders being previously disadvantaged female individuals. Our management team boast more than 200 years of light to heavy engineering experience.

OUR MISSION

Ontrack Welding and NDE Solutions is a ISO 9001:2015 certified and ISO/IEC 17020:2012 NDT accredited solutions-driven business which aims at having a culture of individuals who are experts within their field.

We will ensure our price and service to our customers sustain our business and we will explore the untouched market within our field of capability for growth. We have relationships with our suppliers, helping them to grow as we grow.

With a plan to continually empower our employees, we will keep them motivated and excited to be a part of Ontrack.

QUALITY POLICY

Ontrack Welding and NDE Solutions are committed to the following business management system by:

- Ensuring that our Business Objectives are set and reviewed with an aim to continually improve them
- Committing to run a Business Management system to ISO 9001:2015 and ISO/IEC 17020:2012 NDT
- Ensuring our price and service to our Customers sustain our business
- Having relationships with our suppliers, helping them to grow as we grow
